

BBS Design AB

MÄSSINGSSPECIALISTEN /THE BRASS SPECIALIST

Produkter för designinredning i mässing och rostfritt / Products for interior design in brass and stainless steel

Blänkande mässing och ädelt trä - klassisk elegans och tidlös skönhet!

Vår nya katalog, med sitt omfattande sortiment av rör och mässings- och koppar detaljer, liksom rostfritt, ger oändliga variationsmöjligheter inom formgivnings- och inredningsområdet.

Standardsortimentet kan sålunda kombineras i en mängd sammanhang, t.ex. till bardiskar och barstolar, för räcken och ledstänger, till konsoler för hyllor av glas eller trä, flaskhållare etc.

Genom enkel installation och montering med skruv eller särskilda anslutningsdetaljer, kan tidsödande lödnings- och svetsningsarbeten ofta undvikas. Vårt material är mycket flexibelt, men om lagringssortimentet ändå inte skulle motsvara just Era behov i alla avseende, kan vår verkstad stå till tjänst med kompletteringar eller ändringar. Vi kan också erbjuda ytpolering och kromplätering.

Eftersom vi lagerhåller samtliga komponenter som förekommer i katalogen kan vi lova mycket snabba leveranser.

Bland arbeten, vi haft förtroende att utföra, kan nämnas mässingräcken till Hamburger Börs, Stockholm, mässingräcken och dekor till Sheraton Hotell och restauranger, Göteborg, rostfria räcken till Mordena museet, Stockholm, rostfria räcken till Sky City, Arlanda, mässingräcken och inredning till fem kryssningsfartyg som byggts i Finland för leverans till Karibien samt räcken av mässing och rostfritt till ett antal av Hurtigruttens Fartyg.

Bernt Andersson

Som ett alternativ till de raka kopplingarna har vi de här kulkopplingarna som ger ett gedignare utseende.

As an alternative to the stright tube connections, we have these ballconnectors, wich gives it a more elegant look.

Avdelningsstolpar används för att enkelt och stilfullt kunna avskärma. Vi har dem på hyllan i mässing och krom, men de kan även beställas pulverlackade i färg efter kundens önskemål. För mer information kontakta oss.

Rail posts are used to simply and elegantly create a partition. We stock them in both brass and chrome, but you can also order them powder coated in your own choice of colour. For more information contact us.

Vår butik - Our Botique

Grupper för sex - tio personer i helt unika utföranden samt väggdekorationer finner Ni också hos oss i vår butik. Utöver möbler har en stor mängd av konstgjorda blommor i både trä, silke och kautschuk. Krukor, vasar och andra utsmykningsdetaljer finns i en mängd storlekar och utformningar som mycket väl passar både för inomhus och utomhusbruk.

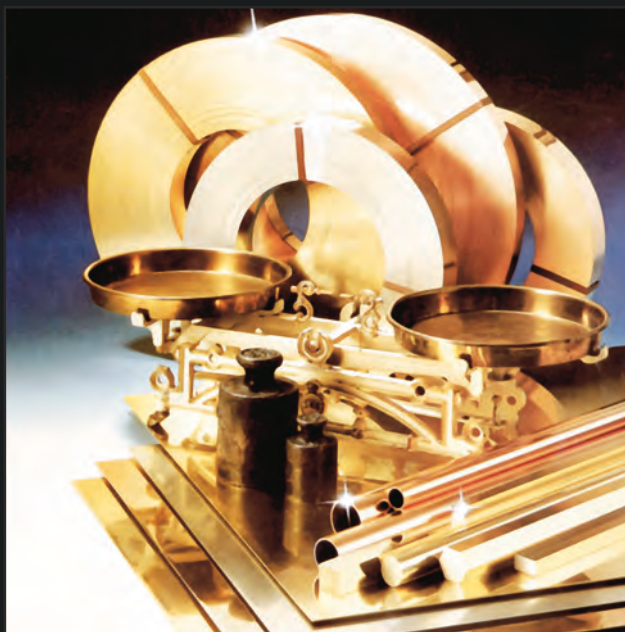

Unika möbler av ädelträ i form av exklusivt handtillverkade stolar som är utmärkta att ställa i receptionen eller hotellentrén både som utsmykning och som en annorlunda plats att låta besökande eller hotellgäster få en avkopplande stund i, är en av våra många möbelspecialiteter.

Bilden visar på ett exempel av en bar vår verkstad utformat mässingsdekorationerna till efter en kunds önskemål. BBS-Design har möjlighet att anpassa mässingsdetaljerna till barer och andra diskar helt enligt Dina önskemål och ritningar.
